

# Announcing End of Life for Internet Explorer 8 on Windows 7

Return to the [Product Announcements and Release Notes Blog](#)

In our continuing efforts to provide the best performing, most up-to-date platform for our users, Sauce Labs will discontinue support for Internet Explorer 8 for Windows 7 on November 12, 2018. We made this decision due to reduced market share of these versions, along with diminished usage by our customers.

We strongly recommend that customers update their tests to the current supported versions and devices. Our [Platform Configurator](#) always has the most up-to-date list of supported browsers and operating systems.

Please contact [support@saucelabs.com](mailto:support@saucelabs.com) if you have any questions or need additional information.

Happy Testing,  
Samantha Coffman  
Product Manager
