

# Example Selenium Scripts for Automated Web App Tests

These topics contain examples of basic Selenium tests and how you would set them up to work with Sauce Labs. [Our GitHub repos under Sauce Sample Scripts](#) contains each of these scripts so you can clone them directly to use in trying out Sauce Labs.

## For Example Purposes Only

The code in these scripts is provided on an "AS-IS" basis without warranty of any kind, either express or implied, including without limitation any implied warranties of condition, uninterrupted use, merchantability, fitness for a particular purpose, or non-infringement. Your tests and testing environments may require you to modify these scripts. Issues regarding these scripts should be submitted through GitHub. These scripts are not maintained by Sauce Labs Support.
