

The Sauce Labs Cookbook Home

Welcome to the documentation wiki for Sauce Labs! Here you can learn everything you need to know about manual and automated cross-browser and mobile application testing with Selenium and Appium in the Sauce Labs browser cloud!

More Information

- [Check out the Support KB](#) for answers to community questions and helpful articles, or if you need to file a support ticket
- The [Sauce Labs blog](#) includes information and discussion about automated Selenium and Appium testing, and announcements of events, new features, and happenings at Sauce Labs
- Post your suggestions for product and feature development in our [Idea Portal](#)
- For operational information about Sauce Labs services, visit our [Status page](#)

Integrations

We're constantly cooking up integrations with your favorite DevOps tools, use these links to check out what's on the menu:

- [Jenkins](#)
- [TeamCity](#)
- [Atlassian Bamboo](#)
- [Bitbucket Pipelines](#)
- [Visual Studio Team Services](#)
- [Slack](#)
- [HipChat](#)

A Quick Tour

- **Getting Started** includes [Instant Selenium Tests](#) and [Sauce Labs Basics](#) to get your Appium and Selenium tests up and running
- **Mobile Application Testing** includes example Appium scripts for [iOS](#) and [Android](#) application testing, and basic steps for running mobile application tests
- **Web Application Testing** includes example Selenium test scripts and basic steps for running website tests
- **Using Sauce with Continuous Integration Platforms** includes information on using Sauce with [Jenkins](#), [Bamboo](#), [Visual Studio Online](#), and other popular CI/CD servers
- The **Platform Configurator** is a tool developed by Sauce Labs to help you set up the [Desired Capabilities Required for Selenium and Appium Tests](#)

Sauce Labs Appium and Selenium Example Script Library

- [Instant Selenium Tests](#)
- [Example Selenium Scripts for Automated Web App Tests](#)
- [Example Appium Scripts for Android Mobile Application Tests](#)
- [Example Appium Scripts for iOS Mobile Application Tests](#)
- [Using Frameworks to Run Tests in Parallel](#)

For Example Purposes Only

The code in these scripts is provided on an "AS-IS" basis without warranty of any kind, either express or implied, including without limitation any implied warranties of condition, uninterrupted use, merchantability, fitness for a particular purpose, or non-infringement. Your tests and testing environments may require you to modify these scripts. Issues regarding these scripts should be submitted through GitHub. These scripts are not maintained by Sauce Labs Support.
