

Android 8.1, now available on Sauce Labs emulators

As we continue our mission to provide our users with the best coverage for testing applications, we are happy to announce that Sauce Labs now supports Android 8.1 on emulators. Please set `platformVersion` desired capability to "8.1" to test on Android 8.1.

Our [Platform Configurator](#) has also been updated to reflect this newest version.

Happy Testing,
Chandra Yalangi
Product Manager - Emulators and Simulators
