

Firefox 69: Now Available on Sauce Labs!

Return to the [Product Announcements and Release Notes Blog](#)

Hello Sauce user!

Sauce Labs is happy to announce that we now support Firefox 69 on both Mac OS and Windows operating systems, as we continue to provide our users with the best coverage for testing applications.

Here is an example of the desired capabilities in Java on a Windows 10 machine using Selenium:

```
DesiredCapabilities caps = DesiredCapabilities.firefox();
caps.setCapability("platform", "Windows 10");
caps.setCapability("version", "69.0");
```

Our [Platform Configurator](#) has also been updated to reflect this newest version.

Happy Testing!
