As we continue our mission to provide our users with the best coverage for testing applications, we are happy to announce that Sauce Labs now supports Chrome 66 on Mac and Windows. This update is supported on all Windows versions and Mac 10.10 and above.

Here is an example of the desired capabilities in java:

```
DesiredCapabilities caps = DesiredCapabilities.chrome();
```

```
caps.setCapability("platform", "Windows 10");
```

```
caps.setCapability("version", "66.0");
```

Our [Platform Configurator](#) has also been updated to reflect this newest version.

Happy Testing,
