

Firefox 82 & Edge 86: Now available in Sauce Labs!

Hello Sauce user!

Sauce Labs is pleased to announce that we now support Firefox 82 and Edge 86 for testing your applications.

Here is an example of the W3C compatible capabilities for both Firefox and Edge using Java that we generated using our [Platform Configurator](#):

Firefox 82

```
MutableCapabilities sauceOptions = new MutableCapabilities();

FirefoxOptions browserOptions = new FirefoxOptions();
browserOptions.setCapability("platformName", "Windows 10");
browserOptions.setCapability("browserVersion", "82.0");
browserOptions.setCapability("sauce:options", sauceOptions);
```

Edge 86

```
MutableCapabilities sauceOptions = new MutableCapabilities();

EdgeOptions browserOptions = new EdgeOptions();
browserOptions.setCapability("platformName", "Windows 10");
browserOptions.setCapability("browserVersion", "86.0");
browserOptions.setCapability("sauce:options", sauceOptions);
```
